**Directions:** David had faith that God would help him defeat Goliath even though his enemy was bigger and stronger than him. Our faith is challenged by the struggles we encounter every day. Write a person or practice that can help you keep your faith in God, allowing Him to help you defeat this challenge. Then crumple this paper into a “stone” and, like David, throw it at your “enemy” on the board (and try to get it into the box!).

A person or practice that can help you find faith in God
